### Pyramiding of Sales Tax Something to Be Avoided

The political uproar caused by a charge that passage of Act 113 of 1967 to exempt manufacturing and processing from the 3 per cent sales or use tax has caused the state government to lose 8 million dollars in annual revenue, should subsidize when you consider the origin of the charge.

It appeared in ex-Gov. Orval Faubus' monthly publication, The Arkansas Statesman — and to say that the charge is suspected of being political rather than factual is the understatement of the year.

While your editor is unfamiliar with the terms of Act 113 it is reasonable to presume it merely reinforced the exemption position which industry was given from the beginning when the original Hall measure was enacted in March 1935.

For instance, several years ago before Act 113 was passed — the Revenue Department attempted to collect \$30,000 in use tax against the out-of-state purchase by Georgia-Pacific Co. of Crosscut of one million dollars worth of electric generating equipment.

The Arkansas Supreme Court held the judge — so what we are dealing with here is a well-established principle regarding what Act 113 specifies.

Computation of "best value" usually is a product of the imagination, for the machine items are produced out of the state and purchased by Arkansas taxpayers when bought directly by the user.

I will omit your specific case; several years ago your editor was negotiating the purchase of an automatic mailing machine for \$3,500. Orval Faubus, then governor, had executed a tricky political play with a law specifying that if an Arkansas business firm bought out of state a machine for which there was a franchise dealer within the state, the 3 per cent tax applied.

The particular brand machine machine I had in mind did have a franchise dealer in Little Rock. But an equally good machine had representative in Memphis — and that's the one I bought. (Saxton)

One of the so-called "best value" manufacturers in New Jersey, the other in Massachusetts — and I couldn't bet a player's time that either of them will ever bring me into the fold of Arkansas.

Lawrence, an industrialist in growing prominence, is a Texan who has bought his franchise from all the way being a Texan trying to protect a Little Rock dealer in an impossible situation.

What we are doing is not of it in all that the local principle on which the sales tax was originally enacted in 1937 — to put a supplement tax on the use and consumption of goods and services produced in the state.

## Prison Head O.E. Bishop Resigns

LITTLE ROCK (AP)—Prison Supt. O. E. Bishop resigned today effective Dec. 31, saying that "many circumstances and a number of people have rendered it impossible for me to do my job in the manner in which I think it should be done."

Bishop turned in his resignation to the state Prison Board shortly after it went into a closed session at the Capitol. Bishop handed the board a letter in which he said he would not attempt "to set out every reason for my decision."

"Suffice to say that many circumstances and a number of people have rendered it impossible for me to do my job in the manner in which I think it should be done," he said.

"Please be assured that I will continue my best efforts until the effective date of my resignation."

Asked what he planned to do, Bishop replied: "I am through with politics."

Bishop, who will be 59 Monday, became superintendent Jan. 1, 1956, succeeding Dan D. Stephens. Before that, he was sheriff of Inland County for 17 years.

His resignation apparently will mean that Thomas O. Murtin, assistant prison superintendent in charge of Tucker Prison Farm, will be the foremost candidate to become head of the state's prison system.

When Murtin, a trained penologist, was appointed as head of Tucker Prison by Gov. Winthrop Rockefeller earlier this year, speculation was that he was in line for Bishop's job.

Rockefeller, however, had expressed satisfaction with the job Bishop was doing.

Bishop and Murtin have been at odds several times, but Bishop has insisted he has not opposed some of the changes made by Murtin at Tucker. Bishop has pointed out that he has made some changes of his own.

Recently, there were reports of a rift between Murtin and Rockefeller, but the two met Tuesday afternoon and the governor said afterwards that he was 100 per cent behind the assistant superintendent.

Rockefeller said that because he knew welfare payments were inadequate, his budget recommendations had included a \$5-a-month increase during fiscal 1967-68 and another during fiscal 1968-69.

"Nevertheless, the increases which took place in 1966 and early 1967 were, in my opinion, imprudent and not based upon fiscal reality," he said. "In this sense, I think it can be fairly said that they were politically motivated."

He added that "whether or not it was the intention of the Welfare Board by such acts to embarrass the successor administration is unimportant. The decisions were unsound and fiscally irresponsible."

Rockefeller said he intended to propose solutions to the department's financial problem during the special session that he intends to call early next year.

## Parents of 7 Small Children in Jail for Poisoning Them

### WR Charges Welfare Manipulated

LITTLE ROCK (AP)—Gov. Winthrop Rockefeller charged Tuesday that political manipulations and fiscal irresponsibility had placed the state Welfare Department in a financial crisis.

He said those responsible were the state Welfare Department, former Gov. Orval Faubus and the 1967 General Assembly.

"Without going into detail at this time, I think it is important to note that the Welfare Board and the prior administration established a rate of expenditure in 1966-67 far in excess of that contemplated by the legislature," he said in a statement released by his office.

"A preliminary analysis indicates that the budgetary difficulties of the Welfare Department arise directly from the Welfare Board's decision to increase payments \$2 in April 1966 and \$10 in October 1966," he said.

He said the board also granted average increases of \$15 a month for welfare clients in nursing homes in December 1966.

"Then the nursing home lobby obtained legislation in February 1967 permitting further increases up to \$30 per month," the governor said. "This legislation was passed over the vigorous opposition of my administration and officials in the Welfare Department."

Rockefeller said that because he knew welfare payments were inadequate, his budget recommendations had included a \$5-a-month increase during fiscal 1967-68 and another during fiscal 1968-69.

"Nevertheless, the increases which took place in 1966 and early 1967 were, in my opinion, imprudent and not based upon fiscal reality," he said. "In this sense, I think it can be fairly said that they were politically motivated."

He added that "whether or not it was the intention of the Welfare Board by such acts to embarrass the successor administration is unimportant. The decisions were unsound and fiscally irresponsible."

## Strike Costs Ford Co. \$73 Million

DETROIT (AP)—While the United Auto Workers union warned General Motors it would authorize strikes to prevent stockpiling of new cars through overtime work, strikebound Ford Motor Co. announced losses of \$73,000,000 in the third quarter of 1967.

The Ford losses, amounting to 68 cents a share, were larger than the firm's profits of \$65,800,000 or 60 cents a share in the third quarter of 1966.

Board Chairman Henry Ford II and President Arjay Miller, in a joint statement, blamed the losses on the strike, which began Sept. 7 when the old contract expired before the company and union agreed on a new three-year contract.

A new contract since has been negotiated but the strike technically is still on because several at-plant local contracts remain in dispute. Settlement at a key parts plant in Canton, Ohio, Tuesday reduced to 17 the number of local disputes still unsettled. These include key stamping plants at Monroe and Woodhaven, both near Detroit.

Meanwhile, UAW Vice President Leonard Woodcock said he had advised GM of the union's plans to permit strikes at some plants if the nation's No. 1 automaker prepares for a possible companywide walkout by scheduling too much overtime.

Woodcock said the UAW position was made known at a meeting with GM bargainers. The day with a warning against meeting, first session among toping the nation be swept "down bargainers since Sept. 19, was the road to chaos and violence," he said.

Sen. John L. McClellan, D-Ark., sounded the warning as the Senate's permanent investigations subcommittee made public its compilation of the toll of lives and property taken by rioting in the last three years.

A mammoth chart is displayed on riots in 76 cities in 1965-67 listed 12 law enforcement officers killed and 1,199 policemen and 2,424 civilians injured.

In 1967 alone, with major riots in Detroit and Newark, 9 law enforcement officers and 75 civilians were listed as killed, while 742 policemen and 1,208 civilians were injured.

Total property damage was estimated at \$210.6 million, and the subcommittee placed the estimated economic loss from the riots at \$504.2 million.

McClellan, the subcommittee chairman, said his group, ordered by the Senate on Aug. 11 to undertake a complete investigation, will concentrate in its initial hearings on the immediate causes of the riots.

## U.S. Expansion of Economy in 81st Month, the Longest

By JOSEPH R. COYNE  
Associated Press Writer  
WASHINGTON (AP)—The U.S. economic expansion moved today into its 81st month—longest in history if it lasts through November—and the government's top economist says chances of keeping it alive indefinitely are "greatly improved."

But his optimism, added Chairman Gardner Ackley of the President's Council of Economic Advisers, hinges in large part on the future of President Johnson's proposed 10 per cent income tax surcharge.

Ackley said the nation now has the knowledge and tools "which greatly improve our chances of sustaining a healthy expansion for an indefinite period."

But he warned that Americans must be willing to use such tools, and said at this time that

## Humphrey Flies Over Battle Area

By PETER ARNETT  
Associated Press Writer  
DA NANG, Vietnam (AP)—Flying a quarter of a mile high between the range of Communist machine guns and missiles, Vice President Hubert H. Humphrey surveyed the U.S. Marines' battleground along the demilitarized zone today. From his lumbering transport plane, he saw U.S. artillery hammering Red positions.

As the vice president's slow-flying C118 dived over the scarred terrain where 10,000 Marines have been wounded or killed this year, Humphrey said: "I saw the firing of cannons, and I could see a destroyer offshore."

Marine F4 Phantom and Intruder jets flew cover above the transport while it traveled at 1,500 feet, out of range of machine guns and automatic weapons and below the 3,000-foot level at which planes become vulnerable to Communist missiles that may be positioned just north of the zone. U.S. headquarters reported today that a squadron of Phantoms attacked a suspected missile site just north of the DMZ Tuesday.

Humphrey, dressed in light blue slacks and a sports shirt, suggested landing at Dong Ha, the Marine base 17 miles south of the DMZ, so he could "take a little helicopter ride north."

"You're kidding, sir," one of the Secret Service men replied. The Marines had made elaborate preparations in case the vice

means approval of President Johnson's proposed 10 per cent income tax surcharge and cuts in nonessential spending.

"We have learned well enough how to stimulate the economy when it is threatened by slack," Ackley said in a statement Tuesday. "We also must show that we have the self-discipline to apply necessary restraint when the economy is threatened by overheating."

As of Tuesday, the economy completed 80 months of expansion—matching the length of the boom that accompanied World War II.

The current boom began in February 1961, the month the late President John F. Kennedy was inaugurated. But it hasn't coasted along without an occasional push. Three tax cuts coaxed it forward at critical periods and now the administration wants a tax increase, which is not genuine.

Should Johnson, as expected, parently have little chance of seeking a second full term in the winning approval in this session of Congress. Chairman Wilbur White House, it would appear virtually impossible for any D. Mills, D-Ark., of the House Ways and Means Committee has thus far refused even to take up the measure unless but said the process of chair-Johnson offers long-range challenge could itself have some long-term impact on the economy.

The current boom followed Chairman J. W. Fulbright, three recessions which followed D-Ark., of the Foreign Relations Committee said open discussion of war policy in the months before the Democratic national since early 1961 in the gross national product—the value of all goods and services produced in the economy.

Fulbright said polls indicate a widespread public belief that the nation is not getting the full story on Vietnam.

There are only 120,000 milk goats in the United States.

## Suggests War Debates in Party Councils

By WALTER R. MEARS  
Associated Press Writer  
WASHINGTON (AP)—Two Democratic critics of President Johnson's Vietnam policy suggested the kind of war debate which has raged in the Senate be carried on in party councils as Democrats prepare for the 1968 White House campaign.

Sen. Eugene J. McCarthy, D-Minn., said Tuesday the process he envisions could lead to contest over foreign policy pronouncements in the Democratic platform—and perhaps over the presidential nomination itself.

"You have to anticipate ultimately that there may be a challenge to the President," McCarthy said.

McCarthy said in-party debate over Vietnam would be politically better for the Democrats, saying it's needed to stem inflation than "to pretend a unity front."

But the tax hike proposal which is not genuine, should Johnson, as expected, parently have little chance of seeking a second full term in the winning approval in this session of Congress. Chairman Wilbur White House, it would appear virtually impossible for any D. Mills, D-Ark., of the House Ways and Means Committee has thus far refused even to take up the measure unless but said the process of chair-Johnson offers long-range challenge could itself have some long-term impact on the economy.

Fulbright said polls indicate a widespread public belief that the nation is not getting the full story on Vietnam.

cause of death was eating something which contained parathion which was in the pots of food which the children licked clean at noontime the day they died," Cline said.

Cline said he had no immediate word whether cause of death of the children in Jacksonville was accidental. The sheriff said the children were Richardson's by a previous marriage.

Richardson, 32, was originally booked into county jail Tuesday night on a charge of first-degree murder but later warrants were issued charging him and his wife, Annie Mae, with child neglect.

DeSoto County Judge Gordon Hays, present at the news conference, said both he and Sheriff Cline felt there was "enough evidence to file murder charges." But he said State Atty. Frank Shaub of Bradenton and Asst. State Atty. John Treadwell of Arcadia did not concur.

"This is why I am summoning a coroner's inquest . . . to substantiate evidence already on hand," Hays said.

Richardson and his wife voluntarily took lie detector tests

## Begin Now to Plan for Christmas

Begin planning Christmas decorations now! Yes, now is the time to start gathering pine cones for the pretty artistic arrangements and other decoration ideas found in the Agriculture Extension Bulletin, "Pine Cone Decorations."

Lasting wreaths and table decorations may be made from pine cones, nuts, acorns and dried seed pods. The Extension bulletin explains how the cones may be treated, cut, finished, and arranged to produce an attractive, economical accessory for your home. If your friends have open fireplaces, made an attractive gift package of cones chemically treated to produce brightly-colored flames when burned.

If you are interested in this free booklet, call the Agricultural Extension Service, Prospect 7-5771

## Sees Medical Film

DR. JON LEIM

DR. DON FREELE

## Prison Drug Ring Told by Doctor

"The Pulse of Life," a medical film showing the best methods of mouth to mouth resuscitation and other important things to do in emergency cases, was shown to Hope Kiwanis club Tuesday by Dr. Jon Leim.

Mouth to mouth resuscitation and heart compression has been successful in many heart cases, suffocation, drowning, gas poisoning and accidental electric shock.

The A. B. C.'s to remember in emergency cases are: (a) Open the air passage by laying the patient on his back, lift the neck and tilt the head. (b) Mouth to mouth breathing. Take a deep breath and blow into the mouth. (c) Circulation is accomplished by heart compression.

Dr. Don Freele also appeared on the program Tuesday and appealed for blood donations to the Hemstead County Blood Bank.

In the matter, saying he didn't think they could be held responsible. He charged it instead to public apathy toward the state prison system.

Barron said Attnip, who actually was employed by a private firm that formerly operated a blood plasma program at the prison on Saturdays and Sundays. He said Attnip had done a good job under the circumstances, and that he admired him for it.

"If you pin it on someone, all you've done is find a scapegoat," he said.

Barron said he had reported the situation to the state Penitentiary Board last week, and that the trusty, plus three other prisoners who worked in the medical program, had been replaced.

He said the two who actually ran the program lived by themselves, and that the search of their lockers also turned up a cache of .22-caliber bullets and an alcoholic mouthwash that was sold by the drink to inmates coming to the hospital.

The doctor said the drugs were purchased by the state at wholesale prices, which are 40 to 50 per cent less than those paid by the public. He said he uncovered the drug ring after a study of the books revealed the fantastic monthly expenditure for medicine.

He said only one needle and syringe were used in giving shots, and that it was used over and over without sterilization. That probably accounts for the hepatitis epidemic that he at first thought was caused by unsanitary conditions.

"The Pulse of Life," a medical film showing the best methods of mouth to mouth resuscitation and other important things to do in emergency cases, was shown to Hope Kiwanis club Tuesday by Dr. Jon Leim.

Mouth to mouth resuscitation and heart compression has been successful in many heart cases, suffocation, drowning, gas poisoning and accidental electric shock.

The A. B. C.'s to remember in emergency cases are: (a) Open the air passage by laying the patient on his back, lift the neck and tilt the head. (b) Mouth to mouth breathing. Take a deep breath and blow into the mouth. (c) Circulation is accomplished by heart compression.

Dr. Don Freele also appeared on the program Tuesday and appealed for blood donations to the Hemstead County Blood Bank.

In the matter, saying he didn't think they could be held responsible. He charged it instead to public apathy toward the state prison system.

Barron said Attnip, who actually was employed by a private firm that formerly operated a blood plasma program at the prison on Saturdays and Sundays. He said Attnip had done a good job under the circumstances, and that he admired him for it.

"If you pin it on someone, all you've done is find a scapegoat," he said.

Barron said he had reported the situation to the state Penitentiary Board last week, and that the trusty, plus three other prisoners who worked in the medical program, had been replaced.

He said the two who actually ran the program lived by themselves, and that the search of their lockers also turned up a cache of .22-caliber bullets and an alcoholic mouthwash that was sold by the drink to inmates coming to the hospital.

The doctor said the drugs were purchased by the state at wholesale prices, which are 40 to 50 per cent less than those paid by the public. He said he uncovered the drug ring after a study of the books revealed the fantastic monthly expenditure for medicine.

He said only one needle and syringe were used in giving shots, and that it was used over and over without sterilization. That probably accounts for the hepatitis epidemic that he at first thought was caused by unsanitary conditions.

## AFL-CIO May Be Ready to Separate

By NEIL GILBRIDE  
AP Labor Writer  
WASHINGTON (AP)—Walter Reuther appears to be liquidating major financial interests in the AFL-CIO in preparation for pulling his 1.5 million-member United Auto Workers out of the labor federation, informed sources say.

The AFL-CIO's Industrial Union Department, Reuther's last remaining power base within the federation, is rapidly and deliberately spending itself out of money, it was reported.

Jack Conway, executive director of the Industrial Union Department, denied any such significance could be attached to the money problem, but confirmed that more than \$1 million has been spent out of cash reserves in the past 10 months. This was more than half the department's total cash.

"It's nothing serious," said Conway, adding that much of the money had been spent supporting organizing drives among teachers, farm workers and Southern textile workers and in helping other unions.

But another labor source said: "It could mean that if Reuther pulls out of the AFL-CIO, he would leave the Industrial Union Department empty-handed."

Reuther has been attacking the leadership of AFL-CIO President George Meany for more than a year and making threatening gestures to secede from the big labor federation the two men founded 12 years ago.

The Auto Workers union has long been the major financial backer of the 60-union Industrial Union Department that embraces some 6 million of the AFL-CIO's total 14 million members.

Reuther quit as a vice president of the AFL-CIO nine months ago and resigned call other posts except the presidency of the Industrial Union Department.

"It's not as if he were spending other people's money," said one source, adding that, in effect, the Industrial Union Department was getting rid of money largely contributed by the Auto Workers.

"And it's not being wasted," this source said, pointing out the money was being spent helping other unions and on community action programs aimed at solving big-city slum problems. These are two of the areas on which Reuther has severely criticized Meany for not being "dynamic" enough.

Conway, while denying the financial straits had anything to do with the Reuther-Meany dispute, said the Industrial Union Department's cash reserves had dwindled from "slightly over \$2 million" to "somewhere around \$1 million" in the past year.

Other sources said the department's net worth had plummeted from \$2,313,761.58 on Dec. 30, 1966, to "in the neighborhood of \$800,000" now, a drop of more than \$1.5 million in 10 months.

The situation has nothing to do with the AFL-CIO's own separate cash position, which stood at about \$5.7 million in the last annual report July 30. This was an increase of more than \$500,000 during a year when the Industrial Union Department's reserves had already dropped by more than \$600,000.

## U.S. Studies Breakup for G.M.

WASHINGTON (AP)—The Justice Department said today it has been conducting an antitrust investigation into the automobile industry for many years but no decision has been made as to whether any action should be taken.

The department made the comments in a one-paragraph statement related to a Wall Street Journal story which said the department has in its files material for an antitrust suit aimed at breaking up General Motors, the world's largest industrial corporation.

The statement said "the legal and factual issues under consideration are difficult and complex. Neither the antitrust division nor the Department of Justice has made any decision as to what action or actions, if any, should be taken."

Another phase of the government's investigation into the automotive industry currently is said to be unfolding in California where a federal grand jury has for several months been looking into possible charges of price-fixing by motor vehicle firms on antismog devices.

## Weather

Experiment Station report for 24 hours ending at 7 a.m. Wednesday, High 50, Low 40

Forecasts  
ARKANSAS — Considerable cloudiness through Thursday with occasional light rain or drizzle over the state tonight and over east portion Thursday morning. Chance of showers west portion late Thursday. Low tonight low 40s to low 50s; High Thursday mostly in the low and mid 60s.

Regional Forecast  
Central Arkansas — Considerable cloudiness through Thursday with occasional very light rain or drizzle tonight. Chance of scattered showers beginning late Thursday. Cool tonight, a little warmer Thursday before turning colder again Thursday night. Low tonight 45-49; Highs Thursday 58-62.

Northwest and Southwest Arkansas — Considerable cloudiness through Thursday with occasional light rain or drizzle tonight. Chance of showers late Thursday. Low tonight low 40s to low 50s; High Thursday mostly in the low and mid 60s.

Northeast and Southeast Arkansas — Considerable cloudiness through Thursday with occasional light rain or drizzle tonight and early Thursday. Low tonight low 40s to low 50s; High Thursday mostly in the low and mid 60s.

THE THIRTIES' LOOK by a London hat designer brought these creations harkening back to another era, and called, from top to bottom, "Clyde," "Blanche" and "Bonnie."

Removed From Office  
Winston Churchill as First Lord of the Admiralty was held responsible for the defeat of the French and British troops at the Battle of Gallipoli, and was removed from his position.

Such a loss would imply 100 per cent collections of the sales-tax on industrial machinery sales of approximately \$270 million in a period of seven months," he said.

Frank W. Cantrell, executive vice president of Associated Industries of Arkansas, challenged the figures of the Revenue Department and the Arkansas Statesman, the Faubus newspaper.

He said the department's estimate of the loss implied a collection of the 3 per cent tax on industrial machinery sales in the year totaling about \$167 million—"a figure that is manifestly unrealistic."

Cantrell said the figure in the Statesman "is even more fantastic."

He said the department's estimate of the loss implied a collection of the 3 per cent tax on industrial machinery sales in the year totaling about \$167 million—"a figure that is manifestly unrealistic."

He said the department's estimate of the loss implied a collection of the 3 per cent tax on industrial machinery sales in the year totaling about \$167 million—"a figure that is manifestly unrealistic."

## Windsor in Defense of Revenue Act

LITTLE ROCK (AP)—Rep. Cayle Windsor Jr. of Little Rock defended Tuesday Act 113 of 1967 and questioned statements by the Revenue Department that it could cost the state up to \$5 million a year.

The Revenue Department said Monday the act, which exempts certain machinery and plant equipment used in manufacturing and processing from the 3 per cent sales tax, could cost the state as much as \$5 million a year. A newspaper published by former Gov. Orval Faubus estimated the act had cost the state \$8 million in revenue since it was signed in February.

Windsor said "it would appear that this whole matter has been brought up essentially as a political maneuver on the part of the former governor, and that the state Revenue Department has joined in, without valid statistical or other data, to justify its opposition in past years to the passage of legislation similar to Act 113 of 1967."

"I would say first of all," he said, "that we must be extremely cautious in accepting fiscal estimates of any kind from former Gov. Faubus in the light of his estimates of the cost of his new home at Huntsville."

The legislator said the Revenue Department should make a thorough study and analysis of the actual loss of revenue before the legislature can be expected to take any action. The department has said the \$5 million figure is only an estimate and that it has no reliable data to judge the act's effect on current revenues.

Frank W. Cantrell, executive vice president of Associated Industries of Arkansas, challenged the figures of the Revenue Department and the Arkansas Statesman, the Faubus newspaper.

He said the department's estimate of the loss implied a collection of the 3 per cent tax on industrial machinery sales in the year totaling about \$167 million—"a figure that is manifestly unrealistic."

Cantrell said the figure in the Statesman "is even more fantastic."

He said the department's estimate of the loss implied a collection of the 3 per cent tax on industrial machinery sales in the year totaling about \$167 million—"a figure that is manifestly unrealistic."

# SOCIETY

Phone 7-3431 Between 8 a.m. and 4 p.m.

## Calendar of Events

### WEDNESDAY, NOVEMBER 1

A Family Night Potluck supper will be served at the First Presbyterian Church Wednesday night Nov. 1, at 6:30 p.m. Rev. Everett Vinson will be the speaker. This will be the first of a series to be held the first and third Wednesday nights each month through May of 1968.

### THURSDAY, NOVEMBER 2

The Hope Men's Golf Association will meet at the Hope Country Club on Thursday, November 2. Dinner will be served at 7 p.m., and a colored film on golf will be shown at 8 p.m. All male members of the Hope Country Club are invited.

The Senior Citizens Club will have their regular meeting at 2 p.m. at the Youth Center, Thursday, November 2.

The Ladies Auxiliary Post 4511 will meet Thursday, November 2, at 7:30 p.m. for their regular meeting in the home of Mrs. Wanda Byrd on South Grady street.

Chapter 328, Order of the Eastern Star, will meet on Thursday, November 2, at 7:30 p.m. in the Masonic Hall. Past Matrons and Past Patrons will be honored. Please note the earlier meeting time, to be observed during the winter months.

There will be a meeting of the Hope Chapter 328 Order of the Eastern Star Thursday, November 2 at 7:30 p.m. They will honor Past Matrons and Patrons.

### FRIDAY, NOVEMBER 3

There will be an open house at the Country Club following the Hope Football Game Friday night for all club members.

### WEDNESDAY, NOVEMBER 8

The John Cain Chapter, DAR, will have a luncheon meeting Wednesday, November 8 at 12 noon in the Heritage House to honor the Good Citizen Girl, Betty Gaines. The program will be brought by Miss Gaines and Mrs. McDowell Turner. Hostesses: Mesdames: Richards, Howard, Charles Locke, Wilbur Jones, and J. M. Wilson. Men: W. J. Jones, J. M. Wilson, and J. M. Wilson. Tuesday whether or not you plan to attend.

### APPRECIATION DINNER FOR CHARLIE HARRILL

An appreciation dinner for Charlie Harrill was held at the Town and Country on Monday night, October 30 in honor of his

44 years as manager of the Parts Department of Hope Auto Co. Mr. Harrill retired the next day, October 31.

His co-workers presented him a gift, and his employers, Tom and Frank McFarly, gave him a 1968 Ford. Dinner was served to 35, including Mrs. Harrill.

### DUPLICATE BRIDGE CLUB

Four tables of players met for the Hope Duplicate Bridge Club on Monday night, October 30 at the Diamond. Winning couples were: first, Mrs. Lloyd Spencer and Mrs. Taylor Stuart; second, Mrs. Harry Hawthorne and Mrs. Marie C. Hendrix; third, Dr. George Wright and R. L. Broach.

### Mrs. Wallace Out of Hospital

HOUSTON, Tex. (AP) — Gov. Lurleen Wallace of Alabama leaves a hospital today after nearly eight weeks of cobalt radiation therapy treatments.

Mrs. Wallace, 41, underwent cancer surgery at M.D. Anderson Hospital and tumor institute last July and shortly thereafter began the radiation treatments at the hospital as a precautionary measure against recurrence.

She received the treatments as an out patient and spent most of the weekends in Alabama although she suffered what doctors termed a normal sideeffect and was hospitalized briefly.

She is to return to Houston for medical examinations on an annual basis for the next several years, hospital officials said.

### This Woman Had Bad Luck

DETROIT (AP) — Mrs. Janice K. Wilfong, 19, of Southgate, lost a close friend, Jack Lucas, when he died in a Florida auto accident eight months ago.

At the funeral in the Detroit suburb, she not one of Lucas' comrades in the Army, S. Sgt. Roger D. Wilfong of Cumberland, Md.

He comforted her about her loss. Soon their friendship blossomed into romance and they were married on May 19.

After a week's honeymoon, he left for Vietnam. Wilfong died last week as the result of gunshot wounds on a mission for the 101st Airborne Division.

### Keeps Suede Unmarked

The foot parts of old nylon stockings, worn over suede shoes on rainy days, will prevent galushes from marking the suede.

## Wedding Vows Are Repeated

MRS. LAWRENCE CURTIS MORGAN

The wedding of Miss Mary Therese Austin, daughter of Mr. and Mrs. John Winton Austin of Tulsa, Oklahoma, and Lawrence Curtis Morgan, son of Mrs. Verna Fitzhugh and the late Mr. William Morgan of DeQueen, Arkansas was solemnized on October 13 at 7 p.m. in the Holy Family Cathedral in Tulsa, Okla. The Reverend William M. Elcheff officiated at the ceremony.

The bride wore a formal length gown of chantilly lace fashioned along traditional lines with a basque bodice, long sleeves and scalloped Sabrina neckline. The full skirt was designed with a bustle back outlined with horse-shoe of self roses. Her tiered veil of silk illusion was secured by a pearl crown.

Miss Susie Young of Tulsa, Okla., was the bride's honor attendant. The bride's other attendants were Mrs. Rita McClure of Camden, Arkansas, Mrs. Janis Bugle of Edwardsville, Illinois,

Miss Ann Kehoe and Mrs. Wanda Martin both of Tulsa, Oklahoma. Mr. Gene Morgan of Houston, Texas, served his brother as best man. Other groomsmen were Mr. Charles Morgan, brother of the bridegroom, San Angelo, Texas, Mr. Cliff Walker of Tulsa, Oklahoma, Mr. Thomas McClure and Mr. George Bugle. Ushers were Alden Smith of Tulsa and Mr. Walton Smith of Harrah, Oklahoma, uncle of the bride.

After the wedding a reception was held in the Church Hall. Hostesses at the reception were Mrs. Alden Smith, aunt of the bride, Miss Margaret Smith, cousin of the bride, and Mrs. Howard Byers of Hot Spring, Arkansas, formerly Miss Frances Patterson of Hope.

After the wedding, the couple left for Hanford, California, where they will reside. There the bridegroom will be an Aviation Electrician with the United States Navy.

## Bob Thomas at the Movies

By GENE HANDSAKER  
Associated Press Writer  
HOLLYWOOD (AP) — Authors bequeath books and bricklayers their handiwork, but screen actors are uniquely privileged: they leave themselves. Immortalized on film and sound track, they remain after death as real and vibrant to their public as when they trod the movie stages. And death has no sting at the box office — except as a stimulant in rare instances where cult followings develop.

About 900 students paid their way into UCLA's Royce Hall a few evenings ago to applaud two movies a combined 38 years old, featuring six actors now dead.

The hip collegians laughed at a now camp touch in 1953's "Shane" — a mongrel slinking away to underscore a gunfighter's villainy. But they clearly relished two of the greatest fight sequences ever filmed and the heroics of Alan Ladd, clean-looking, deep-voiced and laconic in fringed buckskins as he drove the bad guys from the settlers' valley.

"Casablanca" has been on television countless times and like "Shane" seemed tiny in its old 3-by-4 format on the wide screen. But the students applauded Humphrey Bogart when he appeared, suave and cynical. The 1943 film also had suave Claude Rains, sinister Sydney Greenstreet, sly Peter Lorre and excitable S. Z. Sakall — all, like Bogie, now gone but seemingly as alive as ever.

A more spectacular example of deceased actors' immortality at the box office is "Gone With the Wind," which MGM is re-releasing for the sixth time after a take of \$40 million on previous rounds. Now it's in wide-screen format and six-track sound.

Of its stars, only Olivia de Havilland is still alive. Clark Gable, Vivian Leigh and Leslie Howard are gone, but a studio spokesman says: "Their passing doesn't seem to have one whit of effect. It's bigger than anything we've had in years."

Studios generally avoid releasing a film too soon after the star's death for fear of seeming to commercialize. Spencer Tracy died last June, but "Guess Who's Coming to Dinner" won't be shown until December and Columbia won't advertise it as his last film.

Cult followings gave Rudolph Valentino and James Dean bigger popularity in death than in life. Out stars' last pictures also can fail.

Examples: Jean Harlow's "Saratoga," completed with a double after she died; Gable's "The Misfits" and Montgomery Clift's "The Defector."

Malta gained its independence in 1964.

## New Interstate Long Distance Rates and Hours.

	MON.	TUES.	WED.	THURS.	FRI.	SAT.	SUN.
7 a.m. — 5 p.m.	\$1.75 OR LESS						
5 p.m. — 7 p.m.	\$1.25 OR LESS						
7 p.m. — Midnight	\$1.00 OR LESS						
Midnight — 7 a.m.	\$1.25 OR LESS (ON CALLS YOU DIAL YOURSELF)						

Maximum rates for a 3-minute, station-to-station interstate call, plus tax, anywhere in the continental U.S., except Alaska. The 75¢-or-less rate applies only from midnight to 7 a.m. for station-to-station calls dialed direct or for station-to-station calls where DDD is not available.

Arkansas customers of Southwestern Bell Telephone Company will share with other Bell System customers throughout the nation in a \$100 million interstate rate reduction effective November 1.

The new interstate rates were filed with the Federal Communications Commission by the Bell System last month.

Three ways in which telephone users will benefit from the new across-state-lines rates are:

Lower charges on many calls to other states.

Longer time periods and additional days (Saturdays and certain holidays) when low rates apply on interstate calls.

A new "midnight to 7" special dial rate with a 75-cent maximum charge within the continental United States, excluding Alaska.

As an example of the lower rates, a three-minute station-to-station call between 6 p.m. and 8 p.m. Monday through Saturday from Little Rock to New York would have cost \$1.10 under the old rate. The same call under the new rate placed between 5 p.m. and 7 p.m. Monday through Friday will cost \$1. A three-minute station-to-station interstate call placed on Saturday under the new rate will be 75 cents to New York.

The night rate period will be extended from 8 1/2 hours to 12 hours and will be called "after 7 and all weekend." The maximum night rate for an interstate call will be \$1 for three minutes station-to-station. This same rate will also now apply on five holidays.

The new evening rate for interstate calls will begin at 5 p.m., an hour earlier, and will last until 7 p.m. The rate for the maximum distance for the first three minutes of a station-to-station call has been lowered from \$1.50 to \$1.25 on an interstate call.

Person - to - person interstate rates will also be lowered. The maximum day-time rate for three minutes drops from \$3.50 to \$3.30 on interstate calls.

An increase of 5 cents for the initial period for some calls across state lines up to 24 miles

will be introduced to improve the relationship between costs and charges for short-distance telephone calls, a problem common to both the Bell System and the independent telephone companies.

The new rates represent the 22nd major cost reduction since coast-to-coast service began in 1915. The first year, a call between New York and San Francisco cost \$20.70. Reductions followed, and by 1940 the day rate was \$4. The \$1 night rate came in 1963 for calls "after 9," followed in 1965 by "after 8." In this 52-year period, the consumer price index has tripled but the lowest rate for a transcontinental call is now less than 1-20 of the 1915 level.

Other reduced rates include lower rates for measured interstate WATS (Wide Area Telephone Service) and reductions in some overseas rates.

There are 32 known natural satellites in the solar system.

## Has Way to End Grievances

PROVO, Utah (AP) — Professor Joseph Wood of Brigham Young University has an unusual way of settling student grievances.

The history instructor challenges the dissenter to a tennis game. The winner also wins the argument.

Wood recently came out loser in a disagreement with freshman Roy Prescott of Jerome, Idaho who felt there were too many exams.

Prescott beat the sports professor two out of three games so there will be fewer examinations in Wood's classes from now on.

American Expression  
John Hancock was the first to sign the Declaration of Independence. This act made the use of "John Hancock," a meaning signature, an expression in America.

## LET'S TALK ABOUT MOVIES

By VELDA SEAMANS

School is out Thursday and we have a picture that will entertain the kids, mummies and daddies, too. It's Bob Hope in a comedy that is guaranteed to tickle your funny bones. Can't miss — with Phyllis Diller, the gal who got her first big break at the laundromat, and Jonathan Winters, who got his big break by winning a lady's wristwatch in an Amateur contest. . . . For beauty in the picture, it's Jill St. John and Shirley Eaton. Don't miss "seeing" "No Nose" Hope and "Knock - Knees" Diller Thursday, Friday and Saturday in "8 On The Lam", the "Most Wanted Picture of the Year!" SPECIAL MATINEE THURSDAY AFTERNOON, "8 On The Lam" and "Sullivan's Empire" — an adventure picture in the jungles of South America.

Friday, Saturday, and Sunday at the Dixie, it's Debbie Watson in "Tammy and the Millionaire". The fun picture of the season with Tammy, Grandpappy and her new lover.

On the same program is Dean Martin in "All in a Night's Work." Shirley McLaine stars with him in this 'strictly-for-laughs' plot, one we think you will like, too.

Season after season, cushion flange styling stands out as the fashion leader in style and comfort. And, this season is no exception — ask for the shoe with the cushion flange inside.

## MAY AND OCTOBER ROMANCE

Dear Helen: I have been married nine years and have four lovely children. My husband is 53 and I'm 24. He is as nice as any woman could want, but he has become old and set in his ways. He also won't buy me a home.

Helen, there is a man my age who wants us both to get a divorce so we can be married. He has one child, has been married three years.

I don't know whether I love him or not, but I am thinking of my children. If I stay with my husband, they will miss out on some of the good things in life, like a new home. The young man will give them anything their hearts desire. He says he'll pay for the divorce.

What to do? UNDECIDED

Dear Un: Promises, promises. Knock off listening to this fellow's pipedreams and concentrate on the promises you made nine years ago. H.

Dear Helen: Our 16 year-old daughter was fatally injured in an automobile accident in June. As Christmas draws near, I don't feel that I want to send cards, since I can't include her name.

How can I express my appreciation for the cards people send? Mrs. H.

Dear Mrs. H: People will understand if you skip Christmas this year, but I wonder if that is wise? You can't run away from the holidays. Perhaps you can make them more bearable by getting back to the business of living. Wouldn't your daughter want things that way? In deepest sympathy — H.

Dear Helen: My husband met and fell in love with another woman a year ago. They still write to each other, but he no longer sees her.

He says he also loves me and our child.

Can a man be in love with two women at the same time, and what would you advise me to do? — w.f.a.

Dear W: You a man can love two

women at the same time, but not equally. Your husband made his choice when the other woman moved away. Let him know you understand temptation and you're glad he chose for you — and I think the letters will soon stop coming. H.

Dear Helen: I wonder how often wives jump to the wrong conclusions when husbands withdraw and are no longer loving. Their first thought is, "He's found someone else." The second, "He's being unfaithful."

Possibly the withdrawal is not "cheating", but a temporary attraction to another woman — which he is fighting. Surely a man whose wife could love him must inspire love in other women. If he is at a susceptible time in life he's open to flattery. He lets his imagination wander, and so his wife senses something is wrong. But he draws the line at seduction. And all the time he tries to resist temptation.

Wives should be especially warm to their men at "the dangerous age." A doubting woman can push a man into the arms of the tempter, while an affectionate wife brings him back where he belongs.

This is what many don't seem to realize: honorable men and women can be attracted to one another without ever seriously considering divorce, and certainly not unfaithfulness. Only hate is an evil emotion. People should not be condemned for love FELT, but only for deeds committed. Temptation resisted shows strength of character, while no temptation may only mean no manhood in the first place. And a man (or a woman) can love a mate and still be drawn to someone else, but not for long. Not with the right understanding at home. — ONE WHO KNOWS

## We Are Pleased To Announce That Mr. C.R. (Bob) Kemp

Is Associated With Us As Vice-President And General Manager Of Our Insurance Department.

Bob is a native of Clarksville and graduated from College of the Ozarks with a degree in Business Administration and Economics. He and his wife, Betty, and their two sons, John and Robert, are living at 1517 Pecan Street. They are members of the Methodist Church.

He has been very active in Boy Scout work, the American Legion and the Masons. As a combat veteran of World War II, he served with the 25th Infantry Division in the Pacific Theatre.

For the past 12 years he and his family have lived in Little Rock where he was associated with the Maryland Casualty Company. In 1964 he was selected as "Fieldman of the Year" by his company for all the company offices in a six state area. For the year 1967, the Arkansas Field Club, an organization of field men for all companies in Arkansas, selected him as "Fieldman of the Year" for the whole state of Arkansas.

He has a fine record in the insurance business, and we feel fortunate to have him with us. We hope and believe you will like him, and we know he can do a good job of managing our insurance department.

## Cal, UCLA Get Call as Winners

By HAROLD CLAASSEN  
Associated Press Sports Writer  
NEW YORK (AP) — The time for traditional games is approaching and it also appears traditional that a forecaster can guess right on only about three-fourths of the games. Last week's average was .742, hitting the season's figure to .718.

Southern California over California: The Trojans get the chance to show that they have more than Orange Juice Simpson in their lineup. Off their respective games with Washington, Southern California should win by three touchdowns.

UCLA over Oregon State: Gary Beban will produce another of his extra special, peachy miracles and UCLA will go on to defeat the team that spilled Purdue.

Tennessee over Tampa: The only excuse for this one is that they are dedicating a new stadium at Tampa.

North Carolina State over Virginia: NC State has won seven straight this season by allowing each of its opponents a single touchdown while getting three in each game. The margin shouldn't be changed much.

Houston over Georgia: Warren McVea is the biggest thing to hit Houston since the Astro-dome. Georgia suffers its second defeat of the season.

Purdue over Illinois: Everybody scores on Purdue but very few score enough to beat the Boilermakers.

Indiana over Wisconsin: That Harry Conso of the Hoosiers just loves to run and run. The impotent Badger defense should give him the chance.

Wyoming over San Jose: Jerry DePoyster is rated the best field goal kicker in college football.

Colorado over Oklahoma: The Sooners have come fast since their loss to Texas but are they fast enough to catch Wilmer Cooks?

Notre Dame over Navy: The Terry Hanratty to Jim Seymour battery is sound again and the 270-pound Kevin Hardy is about ready to throw his weight around again.

Alabama over Mississippi State: There are too few Mississippi Staters to contain the Crimson Tide once it starts to roll.

Dartmouth over Yale: Yale's chances are centered on quarterback Brian Dowling and he isn't sound. Dartmouth proud of its defense.

## Brazen Kings of L.A. Romp to 5th Win

LOS ANGELES (AP) — The Los Angeles Kings brazenly romped unbeaten in their first five games in the National Hockey League.

But the expansion club was soundly initiated Tuesday night. The rough New York Rangers with a 6-1 victory handed Los Angeles its third loss. The Kings have two draws.

The Kings moved to a 1-0 lead after 1:31 of the opening period Tuesday night but from there on New York goalie Ed Giacomin was tough.

The Rangers tied it 1-1 in the second period, and Vic Hadfield and Reg Fleming scored back-to-back goals within 24 seconds. Rod Gilbert capped the New York scoring with his 100th goal in the final minutes of the game.

Chile lies closer to the Antarctic Circle than does any other country.

## SOLUNAR TABLES

By RICHARD ALDEN KNIGHT

The schedule of Solunar Periods, as printed below, has been taken from Richard Alden Knight's SOLUNAR TABLES. Play your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

Use Central Standard Time.

## Conference Season Ends Friday

By RALPH ROUNTON  
Star Sports Writer

Mixed emotions come with the end of the conference season, as the Hope Bobcats wind out the string of opponents in 4AA with the Warren Lumberjacks this Friday.

The Bobcats came out of the 0-0 tie at Camden with no serious injuries, as the Cats turned in a fine defensive effort on a cool night, holding Camden to four first downs and 138 yards total offense.

Offensively, though, Coach Freddie Glaze's men could never get untracked. The Bobcats are now long overdue for a good night, and the Warren contest could be a turning point.

The linemen are playing improved ball, both on offense and on defense. Showing very rapid advancement lately is Coach Bill Lawrence's defensive secondary who have really buckled down the past few weeks.

It will take a fine performance for the Bobcats to win, but these two schools have shown an intensifying rivalry, even though the series mark gives each team one victory, one loss, and a tie.

Kickoff time for Friday night is scheduled for 7:30 p.m. at Hammons Stadium.

## Overcome by Hot Streaks, Not Emotion

By THE ASSOCIATED PRESS  
The Kentucky Colonels and the Houston Mavericks were overcome — by hot streaks, not by emotion.

The Colonels led by 15 points late in the third quarter but lost 107-104 to the New Jersey Americans and the Mavericks opened up a 26-10 first-period lead but fell 108-91 before the Minnesota Muskies Tuesday night in the American Basketball Association.

In the only other ABA game, the Anaheim Amigos turned back Oakland 128-123 despite a single-game scoring record of 49 points by the Oaks' Lavern Tart.

St. Louis beat Baltimore 114-103, San Francisco defeated New York 108-103 and Seattle downed Chicago 114-104 in the National Basketball Association.

New Jersey fought back to tie Kentucky 104-104 with 1:47 left and then won it on three fouls shots by Howard Bayne. Darel Carrier led Kentucky with 38 points. Dan Anderson paced New Jersey with 25.

A 38-point second quarter turned the tide for Minnesota, which was led by Mel Daniels' 36 points and Terry Kunze's 24. Art Becker scored 23 for Houston.

Tart hit on 15 of 28 shots from the field and 19 of 22 from the free throw line in a losing cause for Oakland. John Fairchild and Les Selva topped Anaheim with 26 points each.

## Zelmo Beaty Is Off to Fast Start

By THE ASSOCIATED PRESS  
Zelmo Beaty is off to one of his best starts in the National Basketball Association. So are the St. Louis Hawks.

The Hawks made it nine victories in 10 starts by defeating Baltimore 114-103 Tuesday night with Beaty showing the way with 26 points. The victory strengthened the Hawks' hold on first place in the Western Division.

Seattle beat Chicago 114-104 and San Francisco whipped New York 108-103 in the other scheduled NBA games.

Kentucky beat New Jersey 107-104, Minnesota overpowered Houston 108-91 and Anaheim edged Oakland 128-123 in the American Basketball Association.

Beaty, a 1962 Little All-American with Prairie View, is the No. 1 scorer for the Hawks. He tallied six straight points in the last period to erase a Baltimore lead and put the Hawks comfortably ahead on their home court.

Walt Hazzard, former UCLA star, led Seattle to its home court victory over Chicago with 31 points. Six of them came in a row with the Sonics ahead 105-100 to put the game out of reach of the Bulls. It was the ninth straight defeat for the winless Bulls.

San Francisco won its fifth in a row and handed New York its sixth straight defeat. Nate Thurmond, with 26 points and 27

## Fights Last Night

By THE ASSOCIATED PRESS  
MIAMI BEACH, Fla. — Tony Ventura, 204½, Miami, outpointed Billy Tiger, 185½, Miami, 10, COLOGNE, Germany — Jupp Elze, 161¼, Germany, knocked out Charlie Jordan, 155, Miami, Fla., 4.

## A Goat One Minute and Hero the Next

By JACK HAND  
Associated Press Sports Writer  
NEW YORK (AP) — Rookie Don Shy knows how it feels to be a potential goat one minute and a football hero the next.

When the former track star fumbled a New Orleans punt in the fourth quarter Sunday, horns began to snout. But Shy quickly recovered and, five plays later, scooted 33 yards for Pittsburgh's winning touchdown.

Shy's feat of gaining 108 yards on only 10 carries in the Steelers' 14-10 victory over the Saints, earned him The Associated Press' recognition as Offensive Player of the Week in the National Football League.

The Steelers' No. 2 draft choice (they had traded away No. 1) was a great track star at San Diego State where he competed as a hurdler and also in the decathlon.

Shy started the season as the Steelers' third halfback behind Cannonball Butler and Dick Hook but has moved up when opportunities developed through injuries and his own ability.

Speaking to staffer Ben Thomas after the game in New Orleans, Shy said, "That was the first time I ever handled a punt." (He fumbled but recovered on the Saints' 48 midway in the last quarter.)

Shy passed on the credit for the winning touchdown run to his blockers. "We trapped the end and I got two great blocks," he said, "one from Earl Gros and another downfield from Roy Jefferson."

Shy got into the game after Butler was injured in the second quarter. He had run only 17 times for 55 yards before Sunday's game but wound up the top rusher of the day.

He ranks seventh in the league in kickoff returns. His brother, Les, is a running back with the Dallas Cowboys.

## Hawkins Is Starter for Baltimore

By GEORGE BOWEN  
Associated Press Sports Writer

BALTIMORE (AP) — Alex Hawkins has become a starter at end on the Baltimore Colts. But the old hawk has no illusions of grandeur.

"I'll be just as happy to be back up as long as we win," said the nine-year veteran of the National Football League. "I don't mind being a substitute as long as I think I can help."

Hawkins has done that. As a substitute for a substitute, he has caught passes for two touchdowns which have helped keep the Colts the only undefeated team in professional football.

One was in a 24-24 tie against the Los Angeles Rams with only five days of practice after his return to the Colts from the Atlanta Falcons where he went last year in the NFL expansion. The other was Sunday at Washington where he led receivers by gaining 95 yards in Baltimore's 17-13 victory.

He started the game because Ray Perkins, already listed as a sub for Raymond Berry, was bothered with a pulled leg muscle.

For most of his seven previous seasons with the Colts, Hawkins labored on the specialty teams—punts and kickoffs. Even there, though, he gained fame as Captain Who—a nickname acquired when he was introduced in pregame ceremonies along with the offensive and defensive captains of the Colts.

When Hawkins was reclaimed from the discard list this season, it naturally was assumed he would be limited to appearances on the specialty teams. Coach Don Shula was of the same mind, but said that Jim Welch had done such a good job as specialty captain he would retain the title.

But the hawk will get it after all. Welch suffered a back injury Sunday and will be out of action for several weeks.

rebound, faced the Warriors. Phil Jackson, New York rookie from North Dakota, was ejected by referee Bill Kunkel during a rumpus late in the game at the Oakland Coliseum.

Dick Barnett, with 19 points, was high scorer for New York.

TOTEM POLE pileup during the Giants' 38-34 upset of the Cleveland Browns follows Fran Tarkenton's (10) second-quarter fumble. Others in the act are Cleveland's Bill Glass (80) and Erich Barnes (40) and, low man, New York's Homer Jones.

## Clem Daniels Sets a New AFL Record

NEW YORK (AP) — A 34-yard performance against San Diego last Sunday gave Oakland's Clem Daniels a career rushing total of 5,008, making him the first man in the American Football League to reach the 5,000-mark.

But, AFL statistics show today, Daniels, with 482, is still far behind defending rushing champion Jim Nance of Boston for the season.

Nance leads the rushers with 714 yards while Mike Garrett of Kansas City is third with 479. Houston's Hoyle Granger, with 425, slipped from second to fourth.

Len Dawson of Kansas City continues as the leading passer, but San Diego's Lance Alworth has replaced Herwig Dixon of Oakland as the top pass receiver. Alworth, last year's Hiltz, caught 10 passes against Oakland and has 41 for the season.

Dixon is tied with Don Maynard of New York for second, each with 36.

Another Jet, Emerson Boozer, maintained his huge scoring lead, scoring his 13th touchdown for a total of 78 points. Teammate Jim Turner is a distant second with 56 points.

## Practice in the Hawaii Open Meet

HONOLULU (AP) — Practice for the \$100,000 Hawaii Open Golf Tournament has begun and the magic name Arnold Palmer already has golf fans buzzing.

As Palmer and Doug Sanders shot a practice round together on the 7,000-yard, par 72 Waialae course, a huge throng followed. Most were Palmer fans but a large contingent wore signs with Sanders' name.

GOLF PRO Dave Marr (left) grimaces as Neg Cochran (center), NEA cartoonist who draws "Out Our Way," and NEA sports editor and cartoonist Murray Olderman attempt to impress their caddy. They won sets of Ben Hogan golf clubs in the National Cartoonists Society's bowling cartoon contest sponsored by AMF.

## Offense of Giants Is Pro's Best

NEW YORK (AP) — New York's offense still is the best in the National Football League. Green Bay's defense is the best and the Sunday scoreboard proves the point.

The Giants, who rolled to a 38-34 victory over Cleveland's powerful Browns, have been averaging 392 yards per game.

Green Bay, which has limited the opposition to an average of 212 yards a day, was stung by the St. Louis attack of Jim Hart but still managed to beat the Cardinals 31-23 Monday night with their defense.

The Los Angeles Rams are tops in running with 159 yards a game.

Baltimore's lassing attack rolls up 279 yards a game although it has produced only 12 touchdowns passing as compared to the Giants' total of 18.

That stingy Packer defense is first in total yardage allowed and also in pass defense. However, the Cards shot a few holes in that pass umbrella and gained 289 yards in one game through the air. Green Bay's average against passers still is only 90 yards per game. The Rams have the best defensive rushing average, 75 yards per game.

St. Louis has had its passer caught only five times, (three by Green Bay Monday night) and San Francisco has smeared the enemy passer 22 times although it had trouble protecting its own John Brodie against Detroit last Sunday.

## Noble Now Thinking, It Pays Too

By JOE ZELLNER  
Associated Press Writer

ATLANTA, Ga. (AP) — Hunking linebacker Tommy Nobis is doing "a lot more thinking" on the field this year, and it's beginning to pay off for him and the Atlanta Falcons.

The payoff for the Falcon was their first victory of the season last Sunday, 21-20 over Minnesota. For Nobis, the personal dividends included his selection as The Associated Press Defensive Player of the Week in the National Football League.

The 236-pound Texan added two Viking passes for interception, setting up one touchdown and scoring another.

The red-headed, freckle-faced Nobis, quick despite his bulk, built but with no illusion of great speed, picked off a pass by the Kaps of the Vikings to the second quarter and returned it to the Viking's 23. Four plays later, Early Johnson passed to Tommy McDonald for a touchdown.

In the final quarter, Minnesota's Don Chandler threw a pass to the ball, but it fell with Nobis claiming the ball while flat on his back. Hunking line-off up rapidly, he tumbled 41 yards, taking the defense with him into the end zone for what proved to be the winning touchdown.

It was only his third interception as a pro and his first touchdown. Since he played quarterback as a sophomore in high school.

His best play to the goal brought the second killing. "That field goal was a long," and the surest touchdown taped in his career.

"I think that's the great thing about the game," he said. "You can't win it without a defense."

McCormick's magnificent 22-19 record was tops in the league.

## Trouble Is Double in Cincinnati

CINCINNATI, Ohio (AP) — Cincinnati was hit with double trouble today.

The city of about 500,000 was without newspapers and city bus service.

A shutdown of the city's two daily newspapers started Monday with a strike by the photo-engravers which spread to other unions.

Today 800 members of the Amalgamated Transit Union struck the Cincinnati Transit Co. in another contract dispute.

The transit strike, the first in 64 years here, caused massive traffic jams on a rainy morning as workers had to use private transportation to get to their jobs.

Many didn't even know about the strike because they had no newspapers and had missed radio broadcasts.

The newspaper strike, involving the morning and Sunday Cincinnati Enquirer and the evening Cincinnati Post & Times Star, affected about 1,300 persons directly.

The bus strike knocked out transportation of thousands of youngsters to public schools, but Supt. Paul A. Miller said schools would be open.

There were some indications that court action might be taken to halt the transit strike.

## Leads 4AA in Scoring

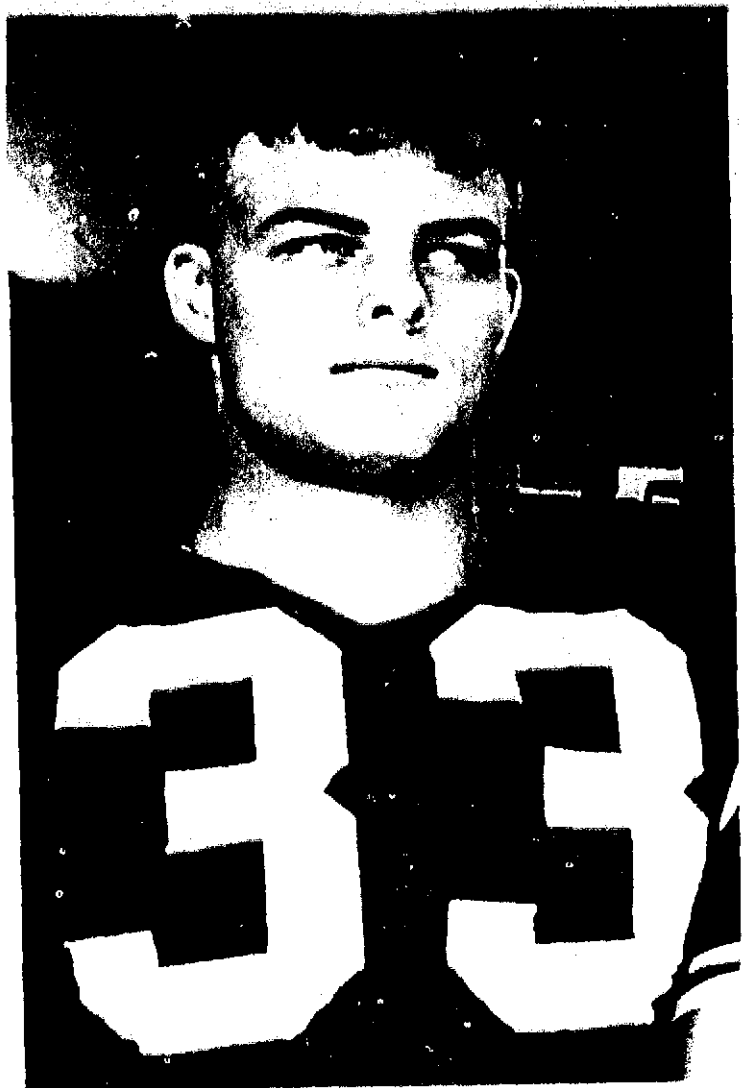

Photo by Bob Newton, Warren Eagle Democrat

LEIGH HARGIS

WARREN — Leigh Hargis, the leading scorer and ground-gainer in Region 4AA, will be a leading light for the Warren Lumberjacks Friday night when they visit the Hope Bobcats at Hammons Field in quest of their second Region 4AA win.

Warren, which is coached by James M. Raper, has beaten Camden, tied Magnolia, and lost to Fairview, Crossett, Milver, and Snackover. The Lumberjacks own non-conference wins over Monticello and Dumas, but

lost a narrow one last week to the Fordyce Redbugs, 10-6. The Associated Press ranks Fordyce as Arkansas' number-one class A football team.

Hargis is the last of three football-playing Hargis brothers who have played for Warren since 1951. The eldest, James, is at West Point and has been a member of the varsity football team there as a halfback. The middle one, David, is a red-shirted sophomore defensive end at the University of Arkansas.

The youngest Hargis didn't play against Hope last year, since he sustained a broken foot two weeks before the Hope game against Camden. Hope faced Warren, 34-14, last year on the running of Buzz Andrews and Jerry McWilliams.

Hargis is 5-9, weighs 193, and has run the 100-yard dash in track in 10.6 seconds. His shirt size gives an indication of his bulk: it's 17-32.

The senior fullback has scored extra points for Warren this season. His longest run has been one of 88 yards for a touchdown against Monticello.

## Think Small Is Message to Defense

By JOHN BECKLER  
Associated Press Writer  
WASHINGTON (AP) — "Think small" is the message a House subcommittee is trying to get across to Defense Department buyers who acknowledge their attention wanders when the dollar volume drops.

With mounting dismay, the subcommittee heard Tuesday the details on a number of purchases in which the government paid far more than the going price for small lots of items needed by the military services.

"This is a sick day," said Rep. Otis G. Pike, D-N.Y., "It's a sick system," echoed Chairman Porter Hardy Jr., D-Va., of the Armed Services subcommittee exploring procurement practices.

One of the main troubles, readily admitted Defense Department witnesses, is that the people doing the buying in the "small purchase" units don't know what they're buying or what it should cost.

"We've gone from 91,000 transactions to 201,000 and from 500 people to 1,000 in the last five years," said a department official, "and I defy anyone to find that many people qualified in procurement."

He said another problem is that a department that spends \$45 billion a year on procurement has a hard time adapting itself to the purchase of 64 couplings at \$46.75 each.

"We've never spent much time pricing items in this area," agreed Col. Stanley Allen, director of procurement for the San Antonio Air Materiel Area. "It's a matter of emphasis and manpower."

But subcommittee members indicated they viewed it as a matter of wasting taxpayer money, noting that the couplings for which the government paid \$46.75 each were listed in the company's catalog at \$16.75.

"We had no knowledge there was a catalog available," said Col. Allen.

"What did you do to look for another source?" asked Pike.

"In essence," replied the colonel, "nothing."

Adorning the hearing room was a display board with examples of other purchases by the government: A plastic dial listing at \$1.62 for which \$275 was paid; a 50-cent shaft for which \$25.55 was paid, and a \$23 wrench for which \$123 was paid.

## Colt 41 Peacemaker

Made with only minor changes from 1873 to date and is chambered in most popular cartridges. Gun the property of Rowland Ballard, California St., Hope, Ark.

## Mayoral Election in Gary, Ind.

By FELMAN MORIN  
AP Special Correspondent  
GARY, Ind. (AP) — Gary's mayoral election, scheduled to be held next Tuesday, now centers largely on a single issue—the Democratic candidate, Richard Gordon Hatcher, is a Negro.

"The vote is polarized on that point," said the incumbent, Democratic Mayor A. Martin Katz.

"The issues being talked about are not the real issue," said Mrs. Phyllis Spencer, a Negro assistant city attorney. "It's a question of color."

Hatcher's Republican opponent is Joseph B. Radigan, a partner in his family's furniture business.

Tuesday Hatcher asked a federal court in Hammond, Ind., to postpone the election on the ground that registration frauds have been perpetrated. In his petition, he said more than 5,000 Negroes were purged from voter rolls, while 4,000 fictitious whites have been registered. He named as defendants John Krupa, the Lake County Democratic chairman, and other party organizations.

Ugly overtones pervade the atmosphere in Gary, a steel-producing community of 180,000, on the eve of the election.

In addition to the charges of registration-fraud, predictions of election day violence have been voiced. A highly placed city official who asked not to be identified said, "Some of the merchants downtown are scared of what may happen if Hatcher loses."

Hatcher, 34, is a soft-spoken lawyer.

He has been a deputy prosecutor in Lake County Criminal Court, a member of the Gary City Council, and then its president.

He sponsored an open housing law and a political observer in Gary said, "He was death on crime as a prosecutor and a councilman."

In the Democratic primary last spring, Mayor Katz sought the nomination for a second term. There was a third candidate, Bernard Konrady. Hatcher received 20,000 votes to 16,000 for Katz and 13,000 for Konrady.

Almost immediately, Krupa began opposing Hatcher.

He says he told Hatcher, "Some day we'll elect a Negro mayor of Gary but you are not the right man."

In a conversation with this reporter, Krupa said, "He's been wheedling and dealing with characters whose patriotism is questionable. He's a militant Negro who scares people."

Krupa has used the word, "subversives," to describe some of Hatcher's supporters. He does not identify them. He also claims Hatcher "advocates Black Power."

Hatcher attributes Krupa's opposition to him to the fact that, "I ran as an independent for the city council. I haven't joined the machine. I'm certain that's a big part of it."

As for the accusation of being an extremist, Hatcher said, "I've already said I deplore violence and I'm opposed to extremists on both the right and the left."

Radigan, the GOP candidate, is 46 and a native of Gary. He has not held elective office but he has served on numerous civic organizations during the last 15 years.

He said he does not believe racism is the predominant factor in the election.

"I would hope it is not," he said, "I hope we will get enough votes out of Midtown (the predominantly Negro section) to show that this is false."

Tribes' Growth  
The Navaho, largest Indian tribe in the United States, is growing at a rapid rate. In 1868, there were not more than 12,000; the current Navaho population is about 90,000.

## WORLD ALMANAC FACTS

On Oct. 11, 1858, Thomas Alva Edison filed papers for his first invention, says The World Almanac. The invention was an electrical vote-recorder designed to tabulate floor votes in Congress in a matter of minutes. Congress rejected it.

## Hippies Had a New Gimmick

FORT WALTON BEACH, Fla. (AP) — Hippies in this beach resort found a new Halloween game, residents told police Tuesday. The bearded and be-draggled beatniks loved the town, knocking on doors with lumps of sugar in their hands offering: "Trick or trip."

## 'Claws' in the Contract

Big front office blowup on the Philadelphia Eagles traces to the financial shorts that owner Jerry Wolman has had in his other operations. He's been trotting around the world trying to fix the situation, and when he asked Ed Snider, who's practically one of the family, to chip in by returning a piece of the hockey action (maybe Jerry needed it for security), Ed refused so out he went as vicepres of the Eagles, despite a 15-year contract.

American Football League buzzing over Kansas City's slump tying in with the quick release of Andy Rice, who had been the starting defensive tackle until Ernie Ladd was acquired. Chief players resenting the fact that a second string tackle was kept instead.

Arnie Palmer, with \$182,000 in the till, has booked two more tournaments: the Sahara Invitational and the Hawaiian Open, both \$100,000 events, as the last on his schedule for 1967. Because Arnie's big motivation now is to capture highest money honors on the tour, a title that has eluded him since 1963, Jack Nicklaus (who is 4) is shading him, only \$14,000 off the pace.

At the recent Ryder Cup matches, Arnie revealed that the national anthem is no longer played in the international competition—at the request of the players. Seems it choked them up so much (with patriotism), one of the contestants actually whiffed the ball on the first tee.

ARNIE PALMER

One of the great college athletes is Ken Hubert, the Houston split end who led the nation's colleges in scoring last year and could repeat. But hardly anybody ever heard of him (outside Houston) until he hauled out star teammate Warren McVea for taking it against Wake Forest. They also showed each other. Ken's also a fine first baseman on the baseball team, would rather play golf than anything else, and as an added touch, lived across the street from the world's greatest shotputter, Randy Matson back home in Pompano, Texas.

McVea, incidentally, has already passed up a bid to play in the Senior Bowl because he doesn't want to damage his amateur status (and maybe his scholarship) until school's out.

Willie Davis, the veteran all-pro defensive end of the Green Bay Packers, compares the personality of his teammates coach Vince Lombardi to the scrambling of Grant Quarterback from Luckenbach. "You never know when he's going to hit," says Willie. "He has two personalities: one for doing good one for doing bad. And you never can be quite sure which one you're going to see. Because when you've played poorly, he might come in calm and smile. And when you've played a good game and are relaxed, he'll come in and chew you out."

Willie's on the verge of getting his master's degree in business administration from the University of Chicago next June.

Alex Hawkins describes what it means to have John Unitas calling the signals for the Baltimore Colts. "It's like playing with Jack Paar. He just tells you what to do."

Between you and me, there's a hidden reason for coach Joe Kuharich's gloom over the Eagles' top-level strife. He's sitting pretty no matter what happens, and it doesn't merely involve the protection of his Foxconn contract.

## Ed Cole Is New Head of Genl. Motors

DETROIT (AP) — Back in 1934, 5-year-old Ed Cole climbed into a 1908 Buick on his father's farm in Marne, Mich., released the handbrake and sent the car rolling into a tree.

The damage was slight, and the scolding the curious kid got didn't dampen his enthusiasm for the four-wheeled carriage.

Now, 33 years later, Edward Nicholas Cole is president of the General Motors Corp.

Cole's election climaxed a GM career that began in 1929 when he enrolled in the General Motors Institute at Flint, Mich., under sponsorship of the corporation's Cadillac division. The job into which he steps paid James M. Roche, the new chairman, \$730,000 in salary and bonuses last year.

Like his father before him, Cole carries no college diploma into the president's office. Roche's education came via correspondence course. Cole's ended at General Motors Institute when Cadillac called him out before graduation and assigned him to a special engineering project.

Known as an engineering genius, Cole personally was responsible for the basic design concept of the Chevrolet Corvair, a light weight, rear-engine car. He is genial and articulate and is known about the GM building in Detroit as a man who has a cheery "hello" for everyone, including the elevator operators and the cleaning crews that dust up at night.

A vice president since 1956, when he was named general manager of the Chevrolet division, Cole had been an executive vice president since 1965 with jurisdiction over all the general staff activities of the corporation.

Cole spent his boyhood on his father's farm, milking cows and delivering milk before school. While still in his teens, he sold tractors during summer vacations, driving them around the countryside and giving on-the-spot demonstrations.

It was the ambition of his parents that he become a lawyer and he entered Grand Rapids Junior College. But a summer vacation job with the Hayes

## 27 More Counties Ask Stamps

LITTLE ROCK (AP) — Welfare Commissioner Len Blaylock said today 27 additional Arkansas counties had applied for the federal food stamp program. Twenty-nine counties already have the program.

Blaylock also said the Department of Agriculture had notified the Welfare Department of new requirements that must be met before the food stamp program can be expanded.

The commission said the Department of Agriculture had asked for assurances that persons eligible for food stamps, who have no income, be provided enough money from county or state funds for the minimum purchase requirements of the stamps.

Blaylock said the requirement is for counties now taking part in the program and any new counties that might be added.

## Liberties Union to Enter Case

WASHINGTON (AP) — The American Civil Liberties Union is coming to the defense of a newsletter which the Post Office Department claims is inciting Negro servicemen to "insubordination, disloyalty, refusal of duty, murder and mutiny."

The ACLU's legal director, Melvin L. Wolff, said court action on behalf of Robert F. Williams, publisher of "The Crusader," will be begun within several weeks.

Williams, a Negro, fled a kidnapping charge in Monroe, N.C., six years ago and now lives in Red China.

After his newsletter was banned from the U.S. mails in August, the Post Office Department said a recent issue "encourages Negro soldiers in Vietnam to murder their white fellow soldiers and generally urged them to create unrest and tension among the troops."

Body Corp., then an automotive supplier, turned him back irrevocably to his first love—cars.

## American Image Same, U.S. Clouded

By JAMES F. KING  
Associated Press Writer  
LONDON (AP) — The image of the efficient American is as bright as ever in European eyes—but the image of the United States is clouded and confused.

The war in Vietnam, a summer of race riots and reports of an alarming crime rate have raised mixed reactions and emotions.

"You people have taken over the world leadership we once had and you're welcome to it, mate," a Cockney cabbie in London tells his American passenger.

A Gaullist Cabinet minister in Paris warns against "the Americanization of French life."

An Italian clerk in Rome says: "I feel sorry for the Americans and we owe them so much."

British officials feel the United States is preoccupied with promoting its own interests, notably in Asia where the chief challenge has arisen.

On the economic front, there is concern that huge U.S. companies will gain control of science-based industries that hold the key to West Europe's future.

Sir Paul Chambers, head of Britain's giant Imperial Chemical Industries and an advocate of British entry into the European Common Market, warned against U.S. domination becoming "a menace to the whole economy of Western Europe."

Britons still look at the United States as the land of opportunity. But there's still plenty of criticism.

One British reporter, after a 6,000-mile trip through the United States, reported that he found "confusion, irritation, bewilderment."

"Attitudes are hardening," he said. "There is less tolerance." Nevertheless, more than 6,000 scientists, technologists and engineers—along with scores of doctors—left Britain last year for the United States for more money and better chances of promotion.

A government report, while expressing concern about the "brain drain," quoted one aeronautical engineer who emigrated as saying about Englishmen working with him: "Almost without doubt, all would prefer life in England. This is a cultural wilderness."

Ken Mills, 45-year-old aviation expert, emigrated to the United States last year, began making more money than ever before in his life, but still came home again.

## White House Clings to Tax Hope

WASHINGTON (AP) — The White House said today that "no, we have not" given up hope that Congress will enact the administration tax bill this session.

This was the word from press secretary George Christian in response to a question pegged to a published report that hopes have been abandoned.

President Johnson has urged Congress to enact a 10 per cent surcharge on top of existing income tax bills in order to help trim the expected big deficit in the present fiscal year.

Senate Democratic Leader Mike Mansfield, of Montana, said today he hopes Congress will stay on the job long enough to pass a tax bill, and a social security bill.

Mansfield had said Sunday there apparently was no possibility of the tax increase being voted in this session. He was the highest ranking Democrat to have conceded publicly there was little chance of passage before Congress quits for the year.

Some executive department officials, however, have been saying this privately.

Texas is the leading goat raising state in the Union.

A part score of 20 is rare indeed. Somehow or other, no one ever gets to play one club or one diamond more than once in a blue moon. It also is easy to bid with that kind of part score. You just ignore it—except to bear in mind that it doesn't help a bit with no-trump but allows you to make game with three of a major or four of a minor.

The 30 part score is a lot more common and leads to some very interesting contracts.

With nothing on score, North would have passed at one no-trump. The 30 points on his side was an attractive inducement to gamble for game and rubber, and he raised to two no-trump.

South wasn't happy with the dummy. Unfortunately the rules of both rubber and duplicate bridge compel you to do the best you can with whatever dummy appears on the table.

South looked around for a way to make eight tricks. He

might get one in the club suit, but there did not seem to be time to develop it. He had two sure heart tricks, two sure diamond tricks and two or three potential spade tricks. There were also two potential diamond tricks. Finally South saw a way to count to eight. He needed two spades and four diamonds to add to his two hearts.

There was no reason to hold off the first heart. South won in his hand and led the jack of spades. West covered with the king. There was no reason to play low and give South three spade tricks instead of two.

South was in dummy with the ace of spades. He led a diamond and ducked in his hand. West continued hearts. South won in dummy and started on diamonds again. When the suit broke, he ran off four diamonds and dummy's queen of spades for game and rubber. A lot of good luck was made possible by the 30 part score.

# Red Barrage Leaves Big Parade Alone

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — Viet Cong mortarmen carried the attack on the Vietnamese district headquarters at Loc Ninh into the fourth day today but left the National Day parade in Saigon alone.

The 200-round barrage fired at one of the American battalions defending Loc Ninh wounded only one man. A total of 365 Communists have been reported killed in attempts this week to overrun the town 72 miles north of Saigon, apparently for a propaganda victory to take some bloom off the inauguration of President Nguyen Van Thieu.

Allied casualties at Loc Ninh so far were reported to be seven Americans and 18 South Vietnamese killed, and 21 Americans and 64 South Vietnamese wounded. B52 bombers dropped 300,000 pounds of explosives today on suspected Communist camps and supply areas.

Ground fighting was generally light across the country, but troops of the U.S. 25th Infantry Division reported killing 22 Viet Cong in a fierce eight-hour fight Tuesday only 19 miles north of Saigon. Six Americans were reported killed and 11 wounded.

Vice President Hubert H. Humphrey meanwhile inspected the demilitarized zone from a C118 transport that lumbered over the U.S. Marines' war-scarred battlefield at an altitude of 1,500 feet. Hours before Humphrey's plane dived over the DMZ, Marine fighter-bombers attacked a suspected surface-to-air missile site just north of the zone, but Humphrey's plane was 1,500 feet below effective SAM range.

Humphrey also visited U.S. units at Da Nang and Chu Lai. The U.S. Command disclosed that 30 to 40 Viet Cong attacked an Army helicopter compound at Chu Lai Tuesday night to plant explosive charges, but the command said the attack apparently had no connection with the vice president's visit. Ten Americans were reported wounded and damage to aircraft and equipment was reported. There was no report of enemy casualties.

U.S. Marine jets also attacked North Vietnamese artillery positions in and above the DMZ and ranged up to Hanoi to plaster the Canal des Rapides highway bridge five miles northeast of the Communist capital's center. It was the eighth straight day of U.S. air raids on Hanoi.

Hanoi Radio claimed U.S. air attacks on the capital in the "past few days" have killed or wounded more than 200 civilians and burned or destroyed more than 150 houses.

Although the Viet Cong fired four mortar shells into the grounds of the government palace in Saigon Tuesday night during an inaugural reception given by President Thieu, the regime's mammoth National Day parade today went off without a hitch. Last year the Viet Cong shelled the parade from outside the city, killed eight persons and wounded 45.

The parade today, which concluded the inauguration program, showed off airborne, artillery and mobile units, new weapons and two companies of uniformed armed forces girls who marched jauntily past the reviewing stand on high heels.

Shortly before Humphrey left for Malaysia, retired Lt. Gen. James M. Gavin, an outspoken critic of the Johnson administration's policy, arrived in Saigon for a five-day fact-finding visit.

# Local Scouts Receive Their Eagles

# Salt Lake Is Not for Swimming

By TOM TIEDE  
NEA Staff Correspondent

OGDEN, Utah — (NEA) — There is no natural wonder anywhere in the United States which is a greater disappointment or a more tragic waste than the bitter, briny expanse of the Great Salt Lake.

In a word, it stinks. The shore, thousands of irregular miles long, is littered with garbage, carcasses, inner tubing, rusting castaways and several million other objects which give off a sort of rotting stench.

The water, what there is of it, is polluted with as much as 30 million gallons of sewage a day and, according to experienced natives, "it's like swimming in a septic tank."

Even the air is putrid. One of the lake's few bathing beaches is located across the road from a smelter factory and the winds are enough to frost the nostrils of a meat packer.

In all, the effect is subduing. "We have some good roads at the lake," says one area critic, "and that's so all the asphyxiated visitors can get out of there quick."

Actually, and unfortunately, there aren't many visitors going into or coming out of the Great Salt Lake these days. Once a famous spa, the place is little more than a local sick joke now.

In the first quarter of the century, millions jammed the public shores and sent home snapshots of themselves floating in the salt buoyancy (27 per cent salt) while sipping soda and reading a newspaper.

Tourists loved the crimson sunsets, the desert dry sun, and the feeling of wallowing in the middle of six billion tons of wet salt.

Then, however, the lake began to dry.

Fresh-water intake slowed down, some streams stonored altogether. Without the vital nourishment, evaporation and salt crystallization have swallowed up nearly a fourth of the water in the past 50 years.

The receding waterline, naturally, has left dreary prairies of muck. Beach facilities have

disappeared. The biggest—Saltair—is now vandal-ridden rubble, half a mile from any water.

Some swim spots remain, but they are desperately grubby.

Without the facilities, tourists have stayed away in droves. A few still motor down from Salt Lake City but the number is embarrassingly small.

The number is so tiny, in fact, that the Utah Travel Bureau admits it doesn't even keep a lake visitor tabulation any more.

"There are a number of people who stop by for a look," says one authority, "but there are very few who go swimming. I'd guess that it has probably become the least-used lake in the nation."

It may be just as well, the official adds. With the present condition of the lake, more visitors would only mean more disappointment. And that, in turn, would only further injure the state's image.

"It's really sad," this authority concludes. "Once the lake was the biggest attraction in Utah. Now it is our biggest detriment."

Despite it all, however, there is no overwhelming wish among state taxpayers to restore the big pond to its original eminence.

Through the years, conservation committees have been formed, fund-raising projects have been initiated, and state and national legislators have suggested superhuman efforts to block further lake deterioration.

But action has been only spotty.

There is a bill in Washington now which would turn one portion of the lake—Antelope Island—into a national monument. And there is current state urging to turn the same island into a summer playground.

"It was lovely here once," says an old Mormon pioneer. "I had a lot of good times at this place. But now I'm old and so is the lake. I don't guess it'll ever be the same for either of us again."

King Solomon's temple stood about 400 years.

Four boys received the highest award in scouting, the Eagle award, at a court of honor in the Methodist church Monday, Oct. 30. Ed McFaddin presented the eagle badge to David Rowe, Steve Martin, Ronnie Volentine of Washington, and Bobby Carlton of Bodcaw.

Participating were: Troop 62 host, Dale Willis, scoutmaster; Calvin Cooper, asst.; Troop 91, Olen Overturf, scoutmaster; Joe Bickerstaff, asst.; Troop 68 Bodcaw, Harlan Carlton, scoutmaster; Dickey Carlton, asst.

Haskell Jones was master of ceremonies. Scout Alan Foster gave the Welcome. Awards were presented as follows:

Dale Willis assisted by Ralph Roulton gave the Tenderfoot Investiture to new scouts Billy Atkins, Robert Gibson, Jimmy Mattox. Olen Overturf presented Second Class Ralph Harrison First Class, Charles Kay, Jr. Star, R. H. Mattox Life.

Merit Badges Nature Oceanography Judge Royce Weisenberger, Pioneer - Personal Fitness Clyde Coffee, Citizenship in Community B. N. Holt, Citizenship in Nation Joe McCulley, Safety Carl Ward, Forestry Bill Roulton, Life Guard, Rowing Cecil O'Steen, Wildlife Management John Williams, Athletics - Atomic Energy Creighton Middlebrooks, Fingerprinting Carl Ward, Public Speaking - Life-saving F. C. Crow, Firemanship Harlan Carlton, 1-2-3 year pins Bobby Joe Lee, Swimming Roger Case, Introduction of guests and the speaker Clifford Franks Advancement Chairman for the District.

Scout awards: Roy Foster, fingerprinting, cooking, swimming, safety, nature, first class, Star, 3-year perfect attendance pin.

Ronnie Volentine, rowing, fingerprinting, lifesaving, Citizenship in Community.

Mike Middlebrooks, cooking, safety, fingerprinting, First Class.

David Rowe, rowing, Citizenship in the community, safety, lifesaving, fingerprinting, personal fitness.

Stan Nix, Second Class.

Dale Comer, Second Class, firemanship.

Bill McCulley First Class safety, fingerprinting.

Mark Gunter, life safety, forestry, life guard, wildlife management, Indian lore, nature, athletics, oceanography, pioneering, atomic energy, swimming, rowing.

Robert Willis, fingerprinting, safety, Second Class.

Steve Martin, public speaking, nature, Citizenship in community, fingerprinting, lifesaving, personal fitness, Indian lore.

Mike Worthy, cooking, safety, fingerprinting, Second Class.

David Huddleston, safety, fingerprinting, cooking, Second Class.

Dick Overturf, nature, fingerprinting, wildlife management.

Robert Lee, fingerprinting, Second Class.

Ronnie Lewis, personal fitness, Citizenship in the community.

Alfonso Roy, nature, personal fitness, cooking, swimming, fingerprinting.

Alan Foster, fingerprinting, Second Class.

Gary Roberts Second Class, fingerprinting.

Kenneth Williams Bodcaw, Star.

Ed McFaddin, the only day of Scouting in the area he changed the name of our council from the Fox-Ark to the Saltair.

Hope Star photo by Donal Parker

dians who once inhabited this area. Recognized were two Eagle Scouts John Spraggins, and Clay Lehman both attended the World Jamboree in Idaho and just recently received their Eagle Badge. Roy Anderson was a guest. Our thanks to Don Parker and the Hope Star for publicity.

# Britain to Reform Its Lords House

By LAWRENCE MALKIN  
Associated Press Writer

LONDON (AP) — Queen Elizabeth II told the ermine-robed members of Britain's House of Lords today that the Labor government plans to reduce their powers and eliminate their present hereditary basis.

Reform of the Lords, said the queen in her speech from the Throne opening the new session of Parliament, will enable the upper house "to develop within the framework of a modern parliamentary system."

The queen's speech was not precise on what reforms the government plans and whether future membership in the House of Lords will be by election or appointment. The speech said the government is "prepared to enter into consultations appropriate to a constitutional change of such importance."

The speech, written by Prime Minister Harold Wilson's Labor government, was read by the queen as usual in the ornate Lords' chamber to the peers in their robes and coronets, with their ladies in long gowns and Jewels. Wilson and his ministers from the House of Commons stood or sat on the steps of the throne.

The queen's speech contained the government's major legislative proposals for the coming session. In addition to the Lord's reform, the Labor government pledged to tighten the nation's gambling laws and extend the scope of laws against racial discrimination.

# Pentagon to Tighten Up on Buying

WASHINGTON (AP) — The Pentagon has ordered a tightening up of its procedures for making small purchases—those penny ante items that add up to millions.

The man responsible is Rep. Otis G. Pike, D-N.Y., who has been blasting the Department of Defense for allegedly sloppy shopping practices when it comes to small purchases.

His prize exhibit was a gear which he said the Pentagon paid \$194.30 for and could instead have purchased from one manufacturer's catalog for \$3.43.

"We cannot tolerate flagrant practices such as those demonstrated by Mr. Pike's findings," a spokesman for the Department of Defense said Monday.

# Wreck Injured Her Own Son

PALM SPRINGS, CALIF., AP — Dora Johnson was driving in Palm Springs when her car and a school bus from St. Theresa's parochial school collided Tuesday.

Four youngsters in the bus were injured slightly. One was Mrs. Johnson's 10-year-old Leroy.

# Peace Plan Is Blocked by Israel

By TOM HOGE  
Associated Press Writer

UNITED NATIONS, N.Y. (AP) — U.N. Security Council efforts toward a Middle East settlement appeared stymied today by new Israeli insistence on direct talks with the Arabs and refusal to pull back to prewar boundaries.

Israeli Foreign Minister Abba Eban told Secretary-General U Thant Monday that Israel stands by its insistence on direct peace negotiations with the Arabs if any such talks are to be held.

Premier Levi Eshkol told the Israeli parliament in Jerusalem that new boundaries would have to be negotiated and Israel would not pull back to positions it held at the start of the June war.

Eban told newsmen at U.N. headquarters Israel's attitude toward two rival plans before the council—both of which would send a U.N. representative to the Middle East—would be determined by whether such a mission "prejudices the Israeli position."

The 10 nonpermanent members of the 15-nation council met twice Monday in an attempt to resolve differences between the two resolutions.

One proposal, drafted by Argentina, Brazil, Ethiopia, India, Mali and Nigeria, spells out specific principles for a settlement and asks the U.N. representative to "contact the parties concerned in order to coordinate efforts to achieve the purpose of the resolution."

These principles include Israeli withdrawal from all Arab soil seized in the June conflict and an end to the Arab state of belligerency against Israel.

The other resolution by Denmark and Canada states vague principles and asserts that no nation in the area should "persist in refusing to withdraw" troops that are on another's territory against its will.

Informed sources said Israel feels that the six-nation proposal calling for Israeli withdrawal from all captured territories would prejudice its case and rule out negotiations with the Arabs on boundaries.

Egyptian informants in Cairo indicated recently that direct talks with Israel are out of the question for President Gamal Abdel Nasser or probably any other Arab leader and will be for three or four years.

# Navigation May Cut Out Rail Bridge

LITTLE ROCK (AP) — The Little Rock District of the Army Engineers is studying a plan to remove the Missouri Pacific Lines bridge over the Arkansas River west of Fort Smith because it does not have enough horizontal clearance between piers for barge traffic.

Under the plan, trains would be routed over the Frisco Railway Bridge between Fort Smith and Van Buren.

A spokesman said removing the bridge might be less expensive than spending \$3.2 million in federal funds to remodel it. The Engineers said the Frisco bridge could handle the traffic of both bridges easily.

Frisco has submitted plans for remodeling its bridge to allow river navigation. The structure would have a lift span with a horizontal opening of 312 feet at a cost of about \$3.2 million. The federal government would pay the cost.

The Missouri Pacific bridge is on a branch line that leaves the main line just west of the Arkansas-Oklahoma border.

# Murton and WR Apparently Have Made Up

LITTLE ROCK (AP) — Gov. Winthrop Rockefeller, who criticized Tucker Prison Sup. Thomas C. Murton for a remark made during a speech at Hot Springs last week, said after meeting with Murton Tuesday that he probably wouldn't have been critical had he known the context of the speech.

The governor met behind closed doors for more than an hour with Murton, who had said in the speech that reforms at Cummins Prison Farm were "superficial."

Rockefeller said he probably would pay a personal visit to both prison farms, but set no dates.

He reiterated that Murton had his total support, adding that, "He's been invaluable in many ways."

# THE DOCTOR SAYS

## New Surgical Techniques Of Help to Clot Victims

By WAYNE G. BRANDSTADT, M.D.

When a blood vessel is cut enzymes are released that favor clotting. This is a life-saving mechanism. Sometimes, however, a vein becomes inflamed and clotting occurs within its walls. When such a clot is small it will be absorbed in a couple of weeks but, if it keeps extending, fragments may break off and travel into the arteries.

Since the arteries grow progressively smaller the farther they are from the heart, these fragments or emboli will finally be forced into an artery that is too small to pass through. They then plug the artery and cut off the blood supply to the area it supplies. In most areas the circulation to the deprived tissues is taken over by collateral blood vessels—a sort of rerouting via a detour. When called on to meet added demands these collaterals enlarge and there is very little disturbance of function.

When the obstruction occurs in an artery in the brain or heart, the result is more serious because of a lack of adequate collaterals.

Persons who have had a stroke or a heart attack due to a clot are often given anticoagulants. These drugs will not dissolve the offending clot. At best they may prevent further clot formation or extension of the existing clot.

Furthermore, they are not an unmixed blessing because they take away the protective clot-forming mechanism so that, if a small hemorrhage starts anywhere in the body, the victim may bleed to death unless prompt corrective measures are applied. For this reason, many doctors have little enthusiasm for the long-term use of anticoagulants.

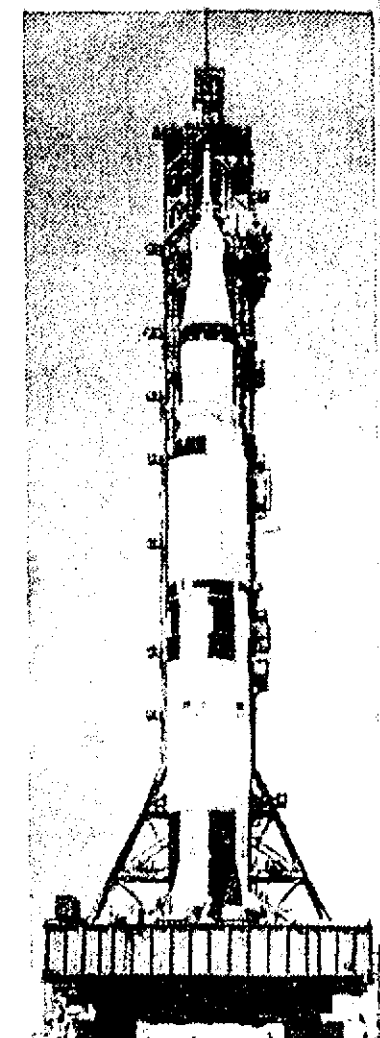

New techniques for the surgical removal of clots from both arteries and veins are being used and hold much promise as effective ways to deal with this age-old problem.

Q—What is the best treatment for the fungus condition that causes black hairy tongue?

A—Black or brown hairy tongue is often seen in persons who are taking antibiotics. The latter suppress the growth of bacteria in the mouth and

give the fungi a chance to thrive. The condition is no threat to your health. Conservative treatment—brushing your teeth after each meal and seeing your dentist twice a year—is best. The local application of chemicals to kill the harmless fungi is not without danger and is not advised. (Newspaper Enterprise Assn.)

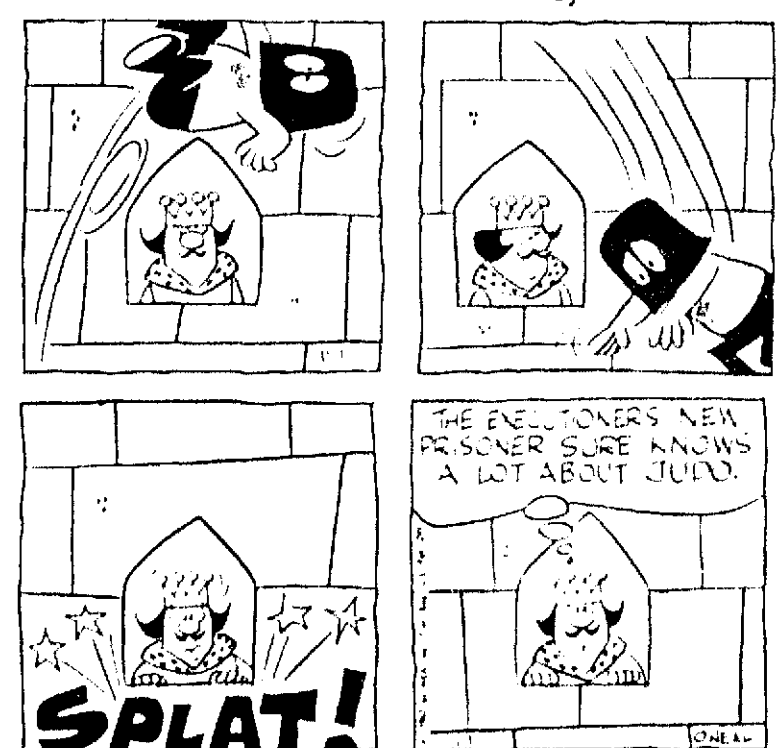

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters he will answer letters of general interest in future columns.

FIRST SATURN V rocket. America's newest big punch in the space race, towers over its Cape Kennedy launching pad awaiting its first space test. The five massive engines of the first stage have a total thrust of 7.5 million pounds. Designed eventually to carry astronauts to the moon, the Saturn, with an Apollo spacecraft on its nose, is as tall as a 36-story building.

IN THE GOOD OLD DAYS, tourists jammed Great Salt Lake's beaches to sport in the buoyant waters. Today, it would be more like swimming in a septic tank and resorts such as Saltair, pictured in its 1929 heyday, are deserted ruins.
